COUNTY LIBRARY MEMBERSHIP TO GO 'OVER THE TOP'

That the membership campaign of the Adams County Free Library Association is approaching its minimum goal of 3,000 members was disclosed at the June meeting of the association's board of directors Monday evening at the court house.

Announcing a current membership total of 2,900, O. H. Benson, chairman of the board and president of the association, said: "Adams county always goes 'over the top' in every worthwhile effort and we feel sure that library memberships will go far beyond the figure we set months ago as the minimum with which we would attempt to begin operating a county library."

"Some county communities," he continued, "have not yet had a full opportunity for their citizens to enroll. We want every man, woman and child in the county and every organization interested in enrolling in the library organization to have the opportunity to join as charter members. No limit ever has been set on the number of members the library may have. We know the total soon will be well above the original minimum of 3,000."

Interviewing Applicants

At the same session the board extended all charter memberships of individuals and organizations to December 31, 1946. This action, it was pointed out, will keep charter memberships in full force for the first year of county library service here. Because county funds for the library will not become available until January 1, 1946, full operation of the library cannot be accomplished before that date, the board members explained. It is hoped, however, to have a trained librarian employed by September 1 of this year.

The special committee on the selection of a librarian reported that it has held two meetings, considered applications and held one interview. A decision on a recommendation to the board is expected to be reached at the committee's next meeting on July 13. That committee report was given by Mrs. E. S. Lewars for the chairman, Dr. Robert A. Bream.

CHARLES WIVELL LOST 50 POUNDS IN NAZI CAMP

T. Sgt. Charles Wivell, AAF, son of Mr. and Mrs. Joseph Wivell, is home on a 60-day leave after having been a prisoner of war in the B-17 Stalag camp, Germany, for almost a year and a half.

Sgt. Wivell was top turret gunner in a B-17 shot down over Greece December 14, 1943. As he bailed out a formation of German fighters circled him so closely he could have reached out and touched their wing tips. His first thought, he stated, was that they would kill him but as they followed him he felt reassured and lit a cigarette which he enjoyed until he hit the earth. The fighters had radioed his position to the ground troops who were on hand to escort him to a building in Athens for questioning.

Two of his crew were rescued by the Greeks and got back to their base. Sgt. Wivell was flown in a Ju-52 to Salonika, Greece, then taken to Frankfurt, Germany, then to the Stalag camp, reportedly the worst of the camps for prisoners of war.

Poor Treatment

When asked about the treatment he received at the hands of the Nazis, he remarked that "it was pretty rough." He lost 50 pounds during imprisonment. Twice a day the prisoners, (approximately 4,000 Americans besides Poles, French, Russians and Czechs), received hot water, and the third meal was a watery, unpalatable soup and on rare occasion, potatoes. The first few months at Stalag, Sgt. Wivell said, the Red Cross packages came fairly regularly and were the only thing the boys looked forward to. For the past year, however, Red Cross packages were a rarity, the German civilians making the excuse that they were demolished by the American bombing.

When liberation came on May 3, 1945, and the starved men ran through the nearby towns looking for whatever food they could find, they saw the American Red Cross packages stacked and empty in over two-thirds of the German civilian homes. During internment the (Please Turn to Page 5)

Anxious To See County Girl

Wilbur G. Keller, 21, of near Cashtown, who served with the 86th Division on the Western Front, arrived in this country with his outfit on Sunday. He is at the Port Dix, N. J., separation center preparatory to receiving a 30-day furlough.

At Camp Kilmer, N. J., where the Black Hawk Division was first sent Keller told a reporter: "I'm anxious in a way to fight the Japs but I'm more anxious to get home and see Louise Jacobs of Arendtsville."

TELLS ROLE OF U. S. TRAVELERS AFTER THE WAR

"American travelers to European countries after the war must not be arrogant or critical of the European people, but rather maintain an attitude of appreciation of their way of life," Dr. Thomas L. Cline, professor of English at Gettysburg college, told the local Rotary club at a ladies' night dinner at the Hotel Gettysburg Monday.

When we go back to Europe as visitors, we must not cause people of the Axis countries to feel as beaten nations," Dr. Cline said. "American travelers should be ambassadors of good will, not ill will. Europeans should be treated as Americans would like to be treated and not called names of derision."

Russia, the professor added, along with the countries of western Europe will be a center of attraction. The life, habits and national economy of Russia are new to Americans and they must approach Russians in a spirit of brotherhood and understanding.

Doctor Cline spoke of many cities which escaped serious damage even though they had been subjected to heavy and continued bombing. Many points of interest in London, Paris, Dresden, Vienna, Rome, Florence and other centers of art and culture are unharmed according to reports reaching this country, he said.

Enjoy Special Music

Doctor Cline also discussed the varying modes of travel which will be open to those who intend to visit Europe and other nations after the war and pointed out that for the sake of variety many will probably travel one way by air and another way by ship along routes where the air and ship schedules are carefully coordinated.

A veteran traveler, Dr. Cline conducted tours through Europe during several summers preceding the outbreak of war, and he stated that travel agencies and transportation companies already have long lists of applications for travel as soon as European conditions permit.

The musical part of the program consisted of the songs "When I Grow Too Old to Dream," "Where Blossoms Grow," and "Auf Wiedersehn," presented by Mrs. Murray Frazee, Jr., and "Goin' Home," and "Sunshine of Your Smile," sung by Dr. Frederick Tilberg. Professor Dunning Idle led the group singing accompanied at the piano by Mrs. Idle.

President Walter T. Africa presided. In addition to the Rotarians and their wives there were the following guests: Mr. and Mrs. E. A. Meyer, Washington, D. C.; Major and Mrs. Edmund W. Thomas, Jr., Captain John Stahl, Mrs. C. H. Hett and Mr. and Mrs. George Sidler.

VFW REPORTS ON DONATIONS

The Veterans of Foreign Wars' Building and Welfare Fund Campaign is progressing "satisfactorily," according to preliminary committee reports of donations. Incomplete tabulations show a total contribution of \$236 for this week, with four persons contributing \$25 or more to the fund, and having their names added to the honor roll to be engraved upon the bronze plaque to be erected in the post home as soon as war-time priorities permit.

Those whose names will be engraved upon the honor roll are: Mrs. Eva Pape, Dale Lawver, Raymond Menges, Luther L. Dietrich and Coffman and Fisher Stores.

A joint meeting of the Veterans of Foreign Wars and its Ladies' Auxiliary is planned for Wednesday night at 8 o'clock at Karas' store where the ladies and the men will plan further action to increase the Welfare and Building fund.

Those who have contributed to the fund whose names have been added this week are: C. R. Shuman, P. M. Read, J. T. Pitzer, Miss Dorothy Rosensteel, Mrs. James Knox, Mrs. Virginia Sease, Earl Rohrbaugh and Jacob Small.

E BOND SALES INCH TOWARD COUNTY QUOTA

Adams county inched a couple thousand dollars nearer its \$700,000 quota of E bond sales to individuals in the "Mighty Seventh" war loan drive during the past 24 hours and whittled the unsold balance to a few hundred dollars less than a quarter of a million dollars.

Total sales to date were announced as \$450,506.25, or \$249,493.75 short of the quota.

There was no report on the sale of bonds to corporations which opened on Monday. However, this quota of \$650,000 is expected to be reached in a few days.

Volunteer workers are devoting their attention to the sale of E bonds to individuals, given top priority in the current campaign.

National Sales

Washington, June 19 (AP)—Corporations, eager to invest their idle funds in U. S. securities, already have put more than three billion dollars in the 7th War Loan drive.

Bonds were not issued to corporations in the drive until yesterday. Ted Gamble, National War Finance director, said the size of the early figure "indicates that corporation sales will equal the good record shown to date in sales to individuals."

Here is the money standing in the drive which ends June 30:

Total sales, \$8,903,000,000, which is 63.6 per cent of the \$14,000,000,000 quota. This figure is divided as follows:

To corporations, \$3,049,000,000, which is 43.5 per cent of the \$7,000,000,000 quota.

To individuals, \$5,854,000,000, of which Series E bond sales made up \$2,638,000,000. The individual sales are 83.6 per cent of the \$7,000,000,000 quota for individuals. E bond sales are 66 per cent of the \$4,000,000,000 E bond quota.

Three Countians Given Discharges

Sgt. Paul W. Kunkel, East Berlin R. 2, received his discharge from the Army at Indiantown Gap on Monday.

Pvt. Glen A. Fortney, Gettysburg, and Sgt. Robert S. Kramer, Gardners, were recently given discharges under the point system at Ft. Dix, New Jersey.

WILL ENTER COLLEGE

Miss L. Fay Heiler, Gettysburg R. 3, has registered as a member of the freshman class for the 1945-46 term at Shippensburg State Teachers' college.

Killed In Action

Lt. Gen. Simon Bolivar Buckner (below), commander of the U. S. Tenth Army, was killed instantly on Okinawa, June 18, while observing the fighting in the Third Marine Amphibious Corps sector. Gen. Buckner was 58 years old.

LOCAL GUARD TROOP TO GO TO INDIANTOWN

Members of Troop C, the Adams county unit of the First Cavalry Squadron of the Pennsylvania State Guard, will leave the state armory here Saturday afternoon at 2 o'clock for Indiantown Gap for a 10-day period of field training.

Capt. C. Arthur Brame, troop commander, said today that all of the 73 enlisted men and the three officers of the troop will go to camp. The training at Indiantown Gap is compulsory and all members of the local Guard unit will be required to attend.

The local troop will meet at 7:30 o'clock Friday evening at the armory here for final instructions and to complete preparations for the trip to Indiantown Gap which will be made in the troop's own motorized equipment.

Intensive Training

At Indiantown Gap the local troop will form part of the 6,000 Guardsmen from all parts of the state, including infantry, cavalry, special weapons, engineer and service units who will encamp there Saturday.

It will be the first time that all units of the Guard have been in the field together, Maj. Glen Milton G. Baker, commanding general, said in Philadelphia.

General Baker said the Guard will undergo one of the most intensive training periods in its history. Regular Army officers and War department representatives will observe the training.

3 COUNTIANS GIVEN BONDS FOR FFA WORK

The Sears Roebuck Foundation annual dinner and presentation of awards for the Future Farmers of America was held Monday night at the York Y. M. C. A., with A. M. Squair, manager of the York store, presiding.

A \$100 war bond was presented to Horace Waybright, of Gettysburg, for Adams county; \$50 war bond to Robert Kline, New Oxford, and a \$25 war bond to Charles Lighty, of East Berlin, all members of the FFA. Similar awards were made to York and Lancaster countians.

The Sears Foundation has presented Hampshire gilts to the members of the F. F. A. for the purpose of improving the quality of swine in the counties and the boys who received the gilts are allowed to keep them after the first year provided they give them proper care. The gilts from the first litters are then presented to other members of the F. F. A. for raising and breeding, and they in turn give additional gilts to other Future Farmers later, so that the number of pure bred Hampshire hogs increases year by year.

Richard Lighter, Vocational Educational adviser for Adams county, is director of the Sears Swine Improvement program for Adams county and supervises through the agriculture teachers the care and breeding of the gilts by local members of the F. F. A.

LIONS CHOOSE NEW OFFICERS; HEAR SPEAKER

Gettysburg Lions conducted their annual election of officers at their weekly dinner meeting Monday evening when Dr. William K. Sundermeyer, member of the faculty of Gettysburg college, was the guest speaker.

The new staff of officers, which will take up their duties July 2, follows: President, Glenn L. Bream; first vice president, Milton R. Remmel; second vice president, Mahlon P. Hartzell; third vice president, D. E. Hess; secretary, Robert Smith, re-elected; treasurer, J. Herbert Weikert, re-elected; tail-twister, Kenneth P. Hull; lion tamer, Robert Sheads, and directors for two years, Fred G. Troxell and George T. Raffensperger.

The retiring president, J. Milton Bender, presided at the meeting with 38 Lions in attendance. Charles E. Wolf, Granite warehouseman, was presented as a new member of the club.

Tells of Home Town

The club adopted appropriate resolutions on the death of William A. Beales, who was president of the club when he entered service in June, 1943. The resolutions, prepared by the club's military affairs committee and read by its chairman, Dean W. E. Tilberg, made special mention of Bill's many services to the club and this community.

Dr. J. J. Munley introduced the speaker, Doctor Sundermeyer, who told for the first time in Gettysburg stories he had heard from authoritative sources in Germany before he came to this country about men who became chief figures in the Nazi regime.

Citing his own home town of 17,000 near Hannover, Germany, as a typical example of what happened throughout Germany, he said "the scum of the earth came to the top under Nazi power and the people of Germany realized the type of persons who were gaining high office in their nation."

He told how a "no good" lawyer and despised collector of fines in his home town became high Nazi official.

The clubmen received an invitation to attend a meeting of civic organizations June 27 at Chambersburg under the sponsorship of the state Chamber of Commerce. Next week the Lions will meet at Hershey park at 6:15 p. m.

Taylor Denies He Seeks Judgeship

Leighton C. Taylor, Bendersville attorney, today denied that he is a candidate for the judgeship in Adams and Fulton counties and that he ever considered seeking the office.

When informed by a reporter for The Gettysburg Times that circulars, bearing the printed signature of "Regular Republican Committee" were being circulated in Gettysburg, advocating his candidacy, Mr. Taylor made this statement:

"While I appreciate the mention of my name in connection with the judgeship it nevertheless is news to me, and the circulation of any literature in my behalf is entirely without my knowledge or consent. I am not a candidate for the office."

John H. Basehore, chairman of the Adams County Republican Committee, today said that he "had nothing to do with the circular" and that the signature does not represent his organization.

Pfc. Howard Angell Arrives From Italy

Pfc. Howard W. Angell, son of Mrs. Cora Angell, 311 York street, returned home Monday after spending 18 months in Africa and Italy. Pfc. Angell was inducted in May, 1942, and received his basic training at Camp Shelby, Miss. He was on maneuvers in Louisiana and California before going to Africa in December, 1943.

On May 13, 1944, he was wounded in the hip while fighting in the infantry with the Fifth Army. In addition to the Purple Heart he wears the Good Conduct medal and the European Theatre of Operations ribbon with three battle stars.

At the conclusion of his 33-day delay enroute he will report at Camp Butner, N. C.

Mr. and Mrs. Lawrence Harris, Abbotstown, announce the birth of a son at the Hanover hospital Monday morning.

Yanks On Okinawa Avenging Death Of Lt. General Buckner

Gen. Buckner Is Buried On Hagushi Beach

By AL DOPKING

Okinawa, June 19 (AP)—Lt. Gen. Simon Buckner, Jr., died with a smile on his face reported his aide Maj. Frank R. Hubbard, Jr., of Des Moines, Iowa, and Los Angeles, Cal.

"The General was smiling when hit and it remained on his face in death," said Hubbard after attending Buckner's funeral this morning at Hagushi beach where the first landings were made Easter morning.

Buckner's body was brought in a neatly-made gray wooden casket to the cemetery in a field ambulance at 9 a. m.

Enlisted men and officers lined the dusty road leading to the Seventh Division cemetery.

The casket was laid against a bank of flowers on green camouflage wire as color bears and two riflemen stood erect at the head of the casket.

Killed By 77mm.

Marine Maj. Gen. Roy S. Geiger, who took over the Ryukyus forces, stood at attention with other high ranking officers of the Army, Navy and Marines during the service.

The military funeral was held beneath gray skies less than 24 hours after he was killed by the enemy artillery shell which Hubbard believes was a 77mm.

The commanding general had been at the forward observation post of the Third Battalion of the Eighth Marine Regiment, which went into the line yesterday, for about two hours when the shell hit.

He was standing with other officers in a slight dish-like impression on the forward slope of the ridge, south of Kunishi ridge.

Buckner had just been pointing out interesting bits of action to accompanying officers—tanks spurring flames into cave positions; civilians leaving caves to surrender and sharp fighting on an adjoining hillside—when the first shell exploded in the observation post and a fragment entered his left breast.

Close To Front

Buckner was sitting on a rock at the time he was hit. After the shelling, Japanese snipers came out.

Maj. Gen. Pedro A. Del Valle said that the observation post was very close behind the front line and the Kunishi ridge was still being cleaned up.

No one else in the observation post was hurt by the six shells although Hubbard added that "I and a couple of officers might have been scratched."

When Hubbard reached his side (Please Turn to Page 3)

BOARD HONORS FORMER WORKER

Mrs. Rosalie Raffensperger, Arendtsville, former supervisor in the Adams county Public Assistance office and a veteran of more than 10 years of service in relief offices here, was recommended by the county Assistance Board Monday evening for membership in the state Ten-Year club.

Mrs. Raffensperger served first in the State Emergency Relief Board office here, and then was executive secretary for the Mothers' Assistance Fund. When relief agencies were merged under the Department of Public Assistance, she became supervisor in the new county relief office.

Mrs. Verna Myers, executive director at the assistance office, reported the present case load totals 667 cases involving 989 individuals. A year ago the total number of cases was 670. The present rolls include 461 cases of old age assistance, 77 blind pension, 72 cases of aid to dependent children and 57 cases of general assistance.

Mrs. Myers displayed graphic charts prepared by the state office showing the decrease in relief applications in the last five years and indicated causes for opening and closing relief cases.

Chairman M. Stuart Danner presided with J. D. Miller, J. H. Weaver, J. Hayes Beard and Mrs. Maude Saby, directors, and Mrs. Myers in attendance.

By ROBBIN COONS

Guam, June 19 (AP)—The U. S. Tenth Army broke all planned resistance on Southern Okinawa and drove today toward imminent, final victory to avenge the death of its commander on the field of battle.

Shortly before he fell mortally wounded from a shell burst yesterday, Lt. Gen. Simon Bolivar Buckner, Jr., declared that with two dry days he could "cut them to pieces" and a field dispatch reported that task now was accomplished.

Buckner had held back a surprise, the Second Marine Division, and those veterans of Tarawa and Saipan roared into the Okinawa battle for the first time, crushing in the enemy's west flank.

Only hours before a Japanese shell fragment struck Buckner, the final assault hit its full momentum and while Adm. Chester W. Nimitz did not proclaim the campaign ended he asserted the day of Buckner's death was the day of victory.

The mauled remains of a Japanese garrison that numbered at least 85,000 when the invasion struck 80 days ago have been herded into hardly more than six square miles of the southern tip.

They have been swept from most of Yaeju plateau, bulwark of their last line of defense, and with their backs to the sea held positions three miles wide and nowhere more than two and a half miles deep.

"Fall Is Imminent"

Nimitz in a message to General George C. Marshall, Chief of Staff, said Buckner's death came at a time "when the fall of Okinawa is imminent."

As the final battle swelled, Buckner was buried today in the Seventh Infantry Division cemetery near Hagushi beach, where the first American invaders went ashore April 1.

A Japanese shellburst killed Buckner—outspoken, 58 and white haired frequenter of the front lines—as he sat on a coral rock yesterday, watching Marine reinforcements strike at Japanese fleeing in confusion toward Okinawa's southern seashore cliffs.

Conservative Adm. Chester W. Nimitz in effect announced the capture of Okinawa when he messaged the General's troops "x x x all of us take pride in the day of victory on which he gallantly met a soldier's death."

Many fought fiercely. Fully cognizant, however, that some 10,000 Japanese remain to be killed or captured before Okinawa can be declared "secured" from a military standpoint, Nimitz carefully refrained from announcing the end of organized resistance. He has followed that policy throughout the Pacific campaigns under his command.

Although some Japanese were fleeing in the southwestern sector thousands of others fought back as savagely as any time in the 80-day-old Okinawa campaign.

Maj. Gen. Roy S. Geiger, commander of the Third Marine Amphibious Corps on Okinawa and recently nominated for lieutenant general, immediately was placed in command of the Tenth Army for duration of the Okinawa campaign. A veteran of the Pacific, he commanded Allied air forces in the Solomons in the Guadalcanal campaign.

Buckner was watching the advance of the Marine Eighth Regimental combat team, which had moved up to the front Sunday night and attacked at 4 a. m. By daylight it had gained several hundred yards, in coordination with the Sixth Marine Division's 22nd Regiment.

Resistance diminishes. The combat team just had gone onto Okinawa to speed final conquest in a sector where the Japanese appeared to have centered their remaining defensive strength. The team, first marine unit to go overseas in this war, won presidential unit citations at both Guadalcanal and Tarawa.

All along the ragged, narrowing southern Okinawa sector, Tenth Army troops surged southward against crumbling, diminishing resistance. Everywhere they encountered intense fire from automatic weapons, machineguns and rifles.

FIND WEATHER BALLOON

A meteorological recording balloon sent out by the weather station of the U. S. Weather Bureau at Mt. Weather, Va., was discovered Monday on the farm of William Irvin, Orrtanna R. D. 2, and reported to state police. The balloon carried recording devices and parachute, and printed instructions for forwarding to the Mt. Weather station.

General Buckner Often Visited Here

Lieut. Gen. Simon Bolivar Buckner, commander of the U. S. 10th Army in the invasion of Okinawa, who was killed on the Okinawa front Monday was a frequent visitor to Gettysburg.

General Buckner was a son of a Confederate general during the Civil War. A graduate of West Point and a keen student of military history General Buckner made a study of the Battle of Gettysburg and visited this historic shrine on a number of occasions. His last visit here was during the final reunion of the Blue and Gray veterans in 1938.

General Buckner was in Gettysburg in 1913 in connection with the Fiftieth anniversary celebration and served here from June to August of that year as an aide to General Hunter Liggett.

WRITER TELLS OF INVASION SIGNS IN CHINA

By J. M. ROBERTS, JR.
(AP Foreign Affairs Analyst)

Reports from Chungking this morning attribute the Japanese withdrawal northward along the China coast, and particularly their evacuation of Wenchow, to their fears that Russia will enter the war. At the same time reports recur that Amoy and Swatow are being left to their fate, while the enemy concentrates on holding from Hangchow and Shanghai north, plus a narrow connection with Indo-China and the Malay peninsula inland and to the south. Japanese reinforcements have been reported landing at Bias Bay, which lies near Hong Kong, Kowloon and the apex of an important highway system.

Meanwhile, Chinese newspapers refer repeatedly to what will happen when Americans are able to invade the coast and set up supply routes. They seem to accept it as a foregone conclusion. As a matter of fact, it was more or less in the cards some time ago. Now it appears that if it comes it will be only a side-light to the main campaign against Japan itself.

Real Possibilities
However, it is interesting to note the possibilities of sea routes to China which would increase the hope that, with the fall of the Home Islands, the Japanese effort in north China would collapse. In the south the situation can be left to the British.

Amoy and Swatow mean little, being flanked by Hong Kong and Canton and faced by Formosa. But from Foochow to Wenchow, an area already in Chinese hands, and on to Hangchow, there are real possibilities.

This area is within the range of fighter cover from Okinawa, offers air bases for all sorts of duty and particularly for preventing the Japanese air force from using Formosa, and provides numerous lesser ports such as Singshan, Sammen and Taichow.

350 Miles of Coast
Wenchow is on an important coastal highway about halfway between Hangchow and Foochow, and on another which leads inland to Japanese territory. It is about 150 miles from the main Japanese-held railroad from Shanghai to Indo-China, which already has been cut at Kungning (Nanning) in the south.

Thus the Chinese hold a coastal strip about 350 miles long directly across from Okinawa, from which our planes and ships could cover any desired movement.

This route for the delivery of war material might enable the Chinese, aided by Japan's fear, if nothing more, of Russia in the north, to make it unnecessary for us to undertake a real invasion as we came to understand the word in Europe.

Sgt. Eugene Herring Awarded Bronze Star

T.Sgt. Eugene W. Herring, son of Mrs. Anna Herring, 118 Carlisle street has been awarded the Bronze Star medal for meritorious achievement in connection with military operations against the enemy on Leyte, Philippine islands from November 17 to January 2, 1945.

The citation reads, "Sgt. Herring participated in a series of 15 patrols made at great personal risk, frequently under fire, behind enemy lines. These patrols were responsible for the obtaining of valuable information concerning the enemy's movements and disposition of personnel. In addition, the patrols accounted for a number of enemy troops and captured or destroyed large stores of enemy materiel. Sgt. Herring's capable performance of his duties contributed greatly to the success of these missions."

Herring's outfit, the "Red Arrow" Division, was complimented December 22, 1944 by Maj. Gen. W. H. Gill for successfully completing its mission of forcing a passage south through the mountains from Pina-mopon to the Omac Valley after 36 days of bitter hand-to-hand fighting. The division annihilated the 1st Imperial Jap division and by the action shortened the completion of the Leyte campaign.

Truman Urges New Law On Presidential Succession Order

Washington, June 19 (AP)—President Truman, embarking on the first of a long series of plane flights, today asked Congress to make the speaker of the House his successor if anything untoward should happen to him.

As the House is now organized, this would throw the succession to 63-year old Sam Rayburn of Texas. Under present procedures, Mr. Truman would be replaced in the White House by the secretary of state, the post now held by Edward R. Stettinius, Jr., should he be unable to complete his term.

The speaker of the House of Representatives, Mr. Truman told Congress, is more truly representative of all the people.

GOTHAM GIVES WARM WELCOME TO EISENHOWER

New York, June 19 (AP)—Flag-decked New York, its streets lined with cheering millions, gave a conquering hero's welcome today to General of the Army Dwight D. Eisenhower.

A 17-gun salute boomed out at La Guardia Field after the supreme Allied commander's silver C-54 transport, bringing him from Washington, swooped out of the overcast sky and taxied to a stop at 10:12 a. m. (EWT).

Smiling broadly, Eisenhower greeted Mayor F. H. La Guardia and high army officers as a service band played four flourishes and "The General's March."

"The admiration of seven and one-half million people is extended to you, Gen. Eisenhower," La Guardia said. Eisenhower leaned over slightly to shake hands and replied, "Thank you very much."

35-Mile Drive
Then Eisenhower and the mayor entered an automobile, flying the general's five-star flag, and left the fog-shrouded field on a 35-mile tour of the city.

The cheers that greeted the general and other members of his party, in automobiles to the rear, mounted as the caravan crossed the Triborough bridge, left the borough of Queens and entered Manhattan.

Coming 15 years to the day after Adm. Richard E. Byrd's triumphant return from the Antarctic, today's demonstration promised to overshadow New York's traditionally tumultuous welcomes to trans-Atlantic flyers, foreign dignitaries and other celebrities.

Many uniformed men and women were among the thousands that lined the curbs in every block. Eisenhower, showing no sign of weariness after yesterday's similar demonstration in Washington, smiled and waved acknowledgement to the cheers.

EISENHOWER IS PRESENTED DSM BY MR. TRUMAN

Washington, June 19 (AP)—Gen. Dwight D. Eisenhower moved on today to new fields of conquest after taking his nation's capital by storm with a devastating grin.

The White House and its presiding magistrate fell before the General's ingratiating personality in the last frontal assault upon a city which yielded willingly to his presence.

The sun-tanned General from Kansas and the smiling President from Missouri indulged in an old-fashioned mid-western talkfest last night at a White House dinner climaxed Eisenhower Day in Washington.

Before entering the state dining room for a buffet dinner topped by turkey and dressing, President Truman and his distinguished visitor shook hands with upwards of 125 guests, including G.I.'s and other members of the supreme Allied commander's official party.

Gives Autograph
Throughout the dinner, the President and the General kept up an animated conversation.

Around 9:30, with the party about to break up, Mr. Truman suggested, "let's shake hands with them again, General."

And shake hands again they did—hardly grips accompanied by neighborly smiles.

Before going in for dinner, the President and the General moved about among the guests, autographing for the G.I.'s and making themselves agreeable.

After leaving the White House, Eisenhower went back to his hotel to rest up for another celebration today in New York.

He carried with him a second Oak Leaf cluster to add to his Distinguished Service medal, an honor presented in the Rose Garden at the White House following a city-wide parade and a joint reception by the two Houses of Congress.

Eisenhower left with Congress what he said was the feeling of Yanks everywhere, that the peace "can and must be worked out" so that their children need never face another war.

Punish Criminals
Later, at a news conference at the army's Pentagon, the five-star General declared "the German general staff must be destroyed—never to rise and make war again."

Germany, he said, must be taught that "crime does not pay."

Of Germany's war crimes, the General declared "we must not let a single criminal escape. We must show them that crime does not pay. I will hold this position to the end."

He estimated 15,000 war criminals now are in American and British hands.

Eisenhower had a word of advice for all America on how to treat its returning fighting men.

"For God's sake, don't psycho-analyze them. They are normal people. Put them on the back."

USS Emmons Victim Of Jap Suicide Planes

Washington, June 19 (AP)—The USS Emmons, which helped escort President Roosevelt en route to the Tehran Big Three conference, has been lost off Okinawa—victim of Japanese suicide planes.

Hit by five kamikazes within a few minutes, the Emmons was so badly damaged she had to be sunk by sister ships 12 hours after the attack last April 6. She suffered 139 casualties, including 59 killed, 78 wounded and two missing.

Formerly a destroyer, the Emmons was converted to a destroyer minesweeper before she joined the Pacific fleet last January. In November, 1943, the Emmons was one of a number of escorts for the battleship Iowa which carried Mr. Roosevelt across the Atlantic to his first meeting with Marshal Stalin.

Her fatal engagement was her first in Pacific waters. Attacked by 12 enemy planes, she shot down six, but five bored through the wall of AA fire and crashed the ship.

The attack occurred as the Emmons and another minesweeper were operating in the northern Okinawa area east of Ie Shima.

Pick Tough Outfits As Occupation Units

Paris, June 19 (AP)—Eight battle-hardened U. S. Divisions which fought the Germans in bitter campaigns from north Africa to the heart of the Reich have been chosen for permanent duty in the American zone of occupied Germany.

An official announcement last night disclosed that among the outfits which will compose the Army of Occupation are the 82nd Airborne Division, the First and Fourth Armored Divisions, and the First, Third, Ninth, 29th and 36th Infantry Divisions.

The 82nd, now in Neufchateau, France, has been assigned to duty in Berlin and will leave for the German capital within 36 hours, taking over the role originally intended for the Second Armored Division, which is being deployed elsewhere.

Army commanders could scarcely have picked units less likely to have kindly feelings toward the Germans.

REDS HELD BY POLES AS THEIR WORST ENEMIES

By EDDY GILMORE

Moscow, June 19 (AP)—Military trial of 16 Poles accused of fifth column activities against the Red Army went into its second day today with thousands of words of testimony on the record tending to show that members of the Polish home army regarded the Russians as worse foes than the Germans.

Maj. Gen. Afanasev, the prosecutor, contended the defendants had admitted a Polish home army plot to form a western European bloc after victory in Europe, aimed at the Soviet Union, directed by the Polish exile government in London and including Poland and defeated Germany as partners.

To Deny Killings

Witnesses testified that the home army command had promised its followers that Poland would receive all of the Ukraine up the Dnieper river, including Kiev.

There was no insinuation, either in the testimony or in statements by the prosecution, that Britain or any of her leaders were involved with the alleged plot to form an anti-Soviet bloc.

Several of the defendants, who included the chief of the Polish underground government, Jan Jankowski, and numerous ministers, confessed themselves morally and politically guilty of false attitudes toward the Red Army, but it was understood they would deny any implication in the alleged killing of 594 Russian officers and soldiers.

Ordered to Oppose Reds

None of the testimony yesterday linked the defendants with any of these killings.

Prosecution witnesses testified that the Polish underground army, after the surrender in Warsaw of Gen. Tadeusz Komorowski (Bor) and the collapse of his anti-German uprising last year, had instructions to offer the same kind of resistance to the Russians.

The only member of the accused who seemed to be fighting back was the principal defendant, Maj. Gen. Leopold B. Okulicki, who took over the huge Polish underground army after the surrender of Gen. Komorowski.

Col. Gen. Vassily V. Ulrich, the presiding judge, said the Poles knew they were violating Red Army orders

May Attempt Rescue From "Shangri La"

Manila, June 19 (AP)—An attempt probably will be made tomorrow to bring by glider from New Guinea's hidden "Shangri-La" valley the three survivors of a recent airplane crash, the Far Eastern Air Forces said today.

Maj. William J. Samuels, Oakland, Calif., will pilot the C-47 Army transport detailed to snatch the glider from the floor of the valley.

A terse message from the scene gave no details, but presumably the WAC and two airmen, along with the parachuters dropped to their relief, had completed the 15-mile trip from the mountain saddle, where they lived more than a month, to the air strip in the valley.

By keeping the underground army's weapons and by maintaining radio transmitters and receivers with which they allegedly communicated with the exile government in London.

to the committee on properties and supplies, several members of which were selected at the May meeting.

John H. Knickerbocker told of attending a state meeting of county librarians recently at Harrisburg and said state library officials are "enthusiastic" about the progress being made by the Adams county association and the organization methods being followed here. Mr. Benson also reported on the Harrisburg meeting.

Mrs. Lester O. Johnson reported the design for the county library's monogram soon will be completed. She was authorized to have necessary engravings made. The monogram is being designed by A. Harrison Barr, Carlisle street.

Board members present in addition to Mr. Benson were Treasurer J. Willis Beidler, Mrs. E. S. Lewars, Secretary Marion J. Biggs, Mrs. Johnson, C. A. Cluck, the Rev. Nevin Frantz and Mrs. Q. W. Hershey.

HEAD OF DUPONT RESEARCH WILL RETIRE JUNE 30

For reasons of health, Dr. Charles Milton Altland Stine, 62, an alumnus and president of the board of trustees of Gettysburg college, will retire on June 30 as a member of the executive committee of the E. I. duPont de Nemours and company and as its advisor on research and development. It was announced Monday afternoon at Wilmington, Del., following a meeting of the board of directors.

Doctor Stine will retain his positions of vice president and director of the duPont company. He will be succeeded on the executive committee by Roger Williams, assistant general manager of the explosives department who was today elected a vice president and member of the board of directors and will assume the duties of advisor on research and development.

The retirement from the executive committee of Doctor Stine, one of the best known of industrial research scientists, comes after 38 years with the company, during all of which time, in various capacities, he was closely identified with duPont research and development. In 17 years after joining the company in a minor research position, he became its chemical director. He became a vice president and a member of the executive committee in 1930, at the same time being elected to the board of directors.

Graduated Here in '01

He was graduated from Gettysburg college in 1901 with the degree of bachelor of arts. He received his B.S. two years later, his M.S. in 1906 and the degree of Doctor of Science in 1926. Johns Hopkins university conferred the degree of Ph.D. in 1907.

He taught briefly in Maryland City schools before joining the duPont company. Besides his company offices, he has served the American Chemical Society and the National Research Council in official positions. He also is known as an author. In 1929 he became a member of the board of trustees of Gettysburg college.

Mr. Williams, his successor at duPont, a native of Pottsville, Pa., was educated at the University of Nebraska and Massachusetts Institute of Technology. He joined the duPont company in 1918 as a research chemist. Beginning in 1924 he became associated with the technology of high pressure synthesis processes for making synthetic ammonia, methanol, urea, nylon intermediates, methyl methacrylate monomers for clear plastics, glycol and many other chemicals developed in the ammonia

More Troops Go To Chicago Area

Chicago, June 19 (AP)—The government poured fresh fuel into its newly possessed but slowly moving trucking caravan today and promised full speed ahead to normal operations for Chicago's trucking industry.

"The Army will break the strike," said Ellis T. Longenecker, office of defense transportation manager of the 1,700 government seized lines. "You can't beat the United States Army."

As he forecast a government victory over the truck drivers who are staying away from their jobs in protest over a war labor board wage-hour decision, additional Army troops were enroute to augment the 3,500 soldiers already here. The first troops came Saturday as the ODT took control of the lines to forestall a second strike by the drivers within a month.

As the threatened walkout by thousands of the 14,000 drivers in the two unions involved materialized, trucking operations fell far below normal.

department largely under his direction.

Gen. Buckner

(Continued from Page 1)

the General was still breathing but unconscious. "He didn't know what hit him."

Geiger, a veteran of the Solomons, Marianas and Palau, took over the command of expeditionary troops and the Ryukyus forces at 4:40 a. m., today, after receiving orders from Fleet Adm. Chester W. Nimitz, Jr.

Lauded By Nimitz

Ironically, Buckner met his death on the eve of complete victory in his first field campaign.

The sturdy, silver-haired Kentuckian, who at 58 had won a reputation for aggressiveness and discipline, was the highest ranking American to die by enemy action in the war against the Japanese.

Adm. Chester W. Nimitz, over-all commander of the operations, formally announced Buckner's death today and issued this message to the forces under his command:

"Although we join in grieving over the loss of your able and courageous leader, Lt. Gen. Buckner, all of us in the Pacific ocean areas will take pride in the day of victory on which he gallantly met a soldier's death."

"By the achievements of the 10th Army in the Okinawa campaign under his leadership, we will all gain new inspiration to overcome any and all obstacles standing between us and final victory over Japan."

HOUSING JAM IN WASHINGTON IS AT WORST NOW

By JAMES MARLOW

Washington, June 19 (AP)—The war in Europe is over but housing in Washington is more jammed than at any time since war started.

The war housing center—which tries to find living quarters for newcomers—is receiving about 275 applications a day for rooms.

It places about 190 of them. The agency is asking homeowners who have rooms—but never had roomers—to take them in now.

A number of government workers have quit and left Washington. But the war agencies—and some of the old, regular government departments—have to go outside Washington and recruit new workers.

Take the OPA, for example. In March it had 3,713 employees. By the end of May it had 3,724, a net gain of 11. During that period the OPA lost people, recruited new people, and ended up with 11 more than it had in March.

No Promises

The census bureau is bringing in about 1,200 people to do clerical work on the farm census. This is in addition to the regular staff.

The FBI is bringing in about 700 people to help catch up on the job of classifying the still unclassified part of its 97 million sets of fingerprints.

Before July the Navy will have acquired 700 new workers. The War Department is getting 1,600 new workers here this month and 1,000 in July.

This point should be remembered by anyone coming to Washington. The war housing center says it can't promise housing to anyone. It will try to find quarters for them. But that's all.

Vanilla vines are cultivated under trees large enough to afford shade because they cannot stand much direct sunshine.

The first plants for the exclusive manufacture of rayon in the United States began operation in 1912.

PILES? Try this "SPEEDY" Way

Use a fast-acting formula for distress of piles. Same as used by doctors adjacently at noted Thornton & Minor Clinic. Palliative relief of pain, itch, soreness so QUICK, users are surprised. Helps nature heal raw parts, shrink swellings. Get tube of Thornton & Minor's Rectal Suppositories—or Thornton & Minor's Rectal Suppositories. If not delighted with this doctors' way and the astonishing speedy relief, the low cost refunded on request. At all good drug stores everywhere.

Office Hours: 24 Hours a Day

Your doctor, who is the first to detect a need for rest in others, has driven himself without mercy in wartime. He serves his own patients as well as those of absent physicians, yet finds time to keep abreast of medicine's many wartime discoveries.

Most people were quick to appreciate the doctor's sacrifices and looked for ways to encourage him. They attended his First Aid classes and learned to call him only when absolutely necessary. They volunteered to assist overtaxed nurses in crowded hospitals . . . and turned his dream of

a national blood bank into a magnificent reality.

Today the word, "cooperation", has a fuller meaning in America. The threat to our freedom has rekindled an intense national spirit . . . revealed amazing capacities on the part of our people to help themselves and their fellow countrymen until victory is complete. They are strengthened for the road ahead. They should go far, indeed, in aiding our gallant younger generation get the reward it has earned and will go on earning—progress in a world at peace.

When a product maintains the character that people respect, they are quick to demand it. Generations ago, the makers of Budweiser set a standard—distinctive in taste, pure, good and distinguished for its uniform quality. That's why people everywhere have agreed that Budweiser is "nothing more than beer . . . a tradition". No wonder it is the most popular beer in history.

THREE TEMPTATIONS

Three things there are that drag men down:

Liquor and drugs and love of power.
By these, long years of fair renown
Fall blasted in an evil hour.Of drugs and liquor well is known
How far, to what, their addicts fall.These into sorrow lead their own.
But power works havoc worst of all.Who gives himself to love of power
Soon loses sense of right and wrong.Turns criminal to make men cower,
And brutal merely to be strong.The love of power is fatal stuff.
Greatness has withered in its spell!For few there are made wise enough
To handle it and use it well.

Today's Talk

HE WHO RETURNS

Nothing cheers us more than to see a portion of our boys return to their homes, after their heroic service in foreign lands. We justly welcome them back as genuine heroes. They can never be honored enough. But they don't want to be petted and lionized. They want to get back to normal living as soon as possible.

These boys have been living and fighting in a different world than any ever imagined. They have literally walked the streets of hell itself. It isn't going to be easy to adjust themselves to their former lives. They are going to need all the kindly consideration and sympathetic understanding possible. But they expect nothing beyond a square deal and just treatment.

This adjustment is going to take a long time in many instances. And it is going to mean great patience and courage—greater, even, than that inspired on the battlefield, perhaps. Each one of these boys of ours will be almost wholly upon his own, with many an illusion shattered and many a dream blacked out. But I am sure that it will be as a man, and not as a returned soldier, that he will most want to be looked upon—a citizen returned to help make this country, for which he fought and suffered, a greater country.

Many of the things which this soldier boy will see and hear about will not make him any too happy. He will need great self-control, and a tolerant attitude toward many people unable or unwilling to come around to his viewpoint. His new attitude of mind will be puzzling to many, and even a kind of mystery to himself. Even life will challenge him! And he, in return, will throw down a challenge to life.

But one thing is sure, these returning boys are to shape and direct the future course of this country. They have learned what it means to fight for an ideal, for a principle, and for full freedom. They went out from their homes, their jobs and their schools to be expended for a great purpose, if necessary. Now they return to take up the lines where they were dropped. The least that we can do is to open the door wide for them. No apple salesmen this time!

Tomorrow Mr. Adams will talk on the subject: "Taking and Giving."

Seventh Army Has Goering's Pants

Newark, Del., June 19 (AP)—The Seventh Army's Third Division headquarters is boasting something new in wallpaper—Herman Goering's pants.

Maj. General John W. (Iron Mike) O'Daniel, the division's commander who arrived here Sunday for a homecoming celebration, said the pants are his proudest possession.

He wouldn't say how he obtained them, but admitted that they are "a lot of pants."

FIFTY YEARS AGO

The Hotel Gettysburg: The Hotel Gettysburg, the old McClellan House, is nearing completion, and the whole house will soon be ready for use.

It is now three stories high and contains seventy bedrooms. The front rooms on the third story are furnished with Brussels carpet and the rear ones with ingrain. The new and the old buildings are connected by passage ways. On the second and third floors are ladies' toilet and bath rooms, and every room is connected with the office by electric call bells. Gas and electric lights are in every room. The house has been refurnished throughout with oak furniture, and Brussels carpet is used on the first and second floors. On the first floor the present main entrance will be the ladies' entrance.

The office will be in the lobby. The dining room, 32x45, will seat 130 people. It is well lighted and is finished in oak. The kitchen is in the rear of the dining room.

In the basement are the men's closets and bath rooms, a billiard room and laundry. The floors are all cemented. The bar room, 35x32, is fitted up with fine mirrors and an oak bar. It has a tiled floor. The changes have completely altered the whole hostelry and have made it modern in all respects and a credit to the town.

Marriages: Hare—Lawver—June 18, in this place, by Rev. H. S. Christ, John J. Hare, of Fairfield, to Miss Zora S. Lawver, of this place.

Starnier—Comfort—June 18, at Arendtsville, by Rev. M. M. Noacher, William A. Starnier to Miss Ida C. Comfort, both of Franklin township.

Wedding Bells: Mr. and Mrs. John I. Hartman, of Mummaburg, announce the marriage of their daughter, Cora Elizabeth, to the Rev. Harvey Edmund Berkeley, on the 18th instant. The ceremony was performed at Flohr's church, the Rev. D. T. Koser officiating. Mr. Berkeley is a recent graduate of the seminary and has accepted a call to the Lutheran church at Red Lion.

Miss Ella Morris Krebs, of Baltimore, was married Tuesday evening, June 18th, at the home of her father, to Mr. Schuyler Augustine Hammond, of Gettysburg. The ceremony was performed by the Rev. Dr. Austin M. Courtenay, pastor of Cavalry Methodist Episcopal church, Allegheny, Pa. They will reside in this place, where Mr. Hammond is a member of the engineer corps of the Gettysburg Battlefield Commission.

Birthday Party: Last Saturday evening about 30 children met at the home of Policeman Kitzmiller, in honor of his 10 year old daughter, it being the anniversary of her birth. About 9 o'clock they were invited to the dining room where Mrs. Kitzmiller had prepared a bountiful supply of ice cream, cakes, lemonade, etc. Later the party dispersed to their homes and pleasant dreams.

School Board Meeting: The school board at its meeting on Friday night elected J. D. Hunter, principal of the school and increased his salary to \$85 per month. Another year's work was put in the high school course, and Miss Helen Cope was elected assistant in high school at a salary of \$50 per month. The other teachers elected were as follows: A. grammar, Miss Anna Hake, \$45 per month; B. grammar, Miss Hattie McGrew, \$40 per month; C. grammar, Miss Lizzie Rummel, \$35 per month; 2nd intermediate, Miss Ida E. Sheads, \$35 per month; 1st intermediate, Mrs. Mary E. Wible, \$35 per month; 3rd primary, Miss Sadie Schriver, \$35 per month; 2nd primary, Miss Dora Flemming, \$35 per month; 1st primary, Miss Alice C. Powers, \$35 per month; primary intermediate, Miss Phoebe Gates, \$35 per month; colored school, Mrs. Sallie M. Stewart, \$40 per month.

Personal Mention: Mrs. Minnie Heien, of Reading, is spending a few weeks with her father, Mr. John Culp, of Washington street.

The Rev. W. K. Diehl and wife are visiting Prof. Aaron Sheely.

Mrs. Baltzer Snyder, of Chicago, is visiting her mother, Mrs. King, Chambersburg street.

William F. Freeman has been appointed a policeman by the U. S. Battlefield Commissioners.

Mrs. W. L. Seabrook and family have gone to Winchester, Va.

Miss Ivy Sefton visited Miss Annie Gillilan in Emmitsburg last week.

Clinton D. Spangler and family, of Orange, N. J., were guests of his father, Alexander Spangler, last week.

Miss Ethel Wolf has gone to Lakeville, Connecticut, for a visit to her sister, Mrs. Huber G. Buehler.

Hart Gilbert, Esq., has been appointed to the vacancy of the Health Board for the First Ward.

QUINTANILLA TO
ASK BARRING OF
FRANCO REGIMEBy JOHN M. HIGHTOWER
(Associated Press Diplomatic News Editor)

San Francisco, June 19 (AP)—Mexico came forward today with a proposition that the United Nations permanently bar the Franco government of Spain from membership in their world league.

Luis Quintanilla, former Mexican ambassador to Moscow, planned to put the proposition formally before a public session of one of the United Nations conference commissions, which are driving toward completion of a world charter this week.

His proposal invited argument as to whether the conference should attempt to write any specific membership limitations when it is assigning to a world assembly the task of admitting outside nations.

Up to Russians Again
Quintanilla said he would ask the commission to adopt a declaration stating that no government should be admitted which came to power with the aid of military forces of countries which have fought against the United Nations.

The final session of the conference, with President Truman making the closing address, still is scheduled for next Saturday. But it also is still uncertain whether that date can be kept, even with every effort of conference leaders.

Much depends on possible Russian acceptance of a compromise for limiting the field of subjects which the assembly may debate and on which it may make recommendations to member nations and the security council which would be the peace-enforcing agency.

Committees however were hard at work completing the various charter sections assigned them:

1. A charter setting up standards for the government of dependent peoples was adopted finally and unanimously last night, as the last of a long series of controversial issues was settled in favor of having such colonial powers as Britain and France report regularly to the new league on economic, social and educational conditions in the territories they control.

2. A chapter providing for the use of force by the security council when necessary to maintain or restore peace was put into final shape. The vote was 29 to 0. This cleared up a question as to when the council actually can begin to function after the new league is set up.

URGE BUILDING
PONDS ON FARMS

Pittsburgh, June 19 (AP)—Construction of farm ponds to hold back flood waters—1,000 such ponds a year for the next 10 years—was advocated by the state agricultural conservation committee at a conference yesterday with AAA chairmen from 20 western Pennsylvania counties.

John A. Smith, Harrisburg, secretary of the state committee, said no work on the ponds is expected before the beginning of 1946. He said bulldozers and other equipment released by the army may be used in construction, with the AAA paying for time and labor.

In addition to aiding in flood control, the ponds would aid in rural fire control, Smith said.

Two other new projects were announced for the 1946 conservation program—reforestation and draining of swamplands. Smith said the AAA would pay for trees if farmers would set them out, and that to encourage farmers to reclaim the rich soil under swamps, the AAA would pay half the cost of tile needed.

The conference was one of four scheduled for this month and next. The next will be held June 20 at Harrisburg.

Farmer Killed In
Unusual Accident

Claysburg, Pa., June 19 (AP)—Mason Plummer, 66, was found dead yesterday, pinned under a wagon in a field on his farm. Edgar G. Wall, Blair county deputy coroner, said he believed death occurred Saturday.

Neighbors were attracted to the farm by the sight of Plummer's horses, their feet entangled in harness, hobbling about the field. Circumstances indicated Plummer had unhitched the horses and crawled under the wagon to repair it. A jack slipped and the wagon pinned his body face downward in shallow mud.

Wall said the farmer died almost instantly from suffocation and internal injuries.

CHILD DROWNS

Dysart, Pa., June 19 (AP)—William K. Gregg, 11, was drowned yesterday while swimming in Clearfield creek near this almost deserted Cambria county mining community. The body was recovered 20 minutes later.

Useful Hints on 'This and That'

Do not cut back the tops of peonies, daffodils, hyacinths, crocuses and other bulbous and tuberous rooted ornamentals until they mature. As long as the tops remain green the roots are storing strength for the next year's growth. To cut off the tops before this storing period is completed means weakened vigor the following spring.

Ants rarely attack plants. In most cases when these insects visit certain vegetables and ornamental plants they are attracted by oozing sap from wounds, decaying areas in leaves or stems, or to feed on the sweet secretion of plant lice, commonly called honeydew. In such cases, remove the attraction and ants will soon depart. Occasionally large species of ants cause some injury to root crops, or any ants burrowing among plant roots cause loss of soil moisture.

Honey bees do not eat grapes. Tests show bees will starve to death when confined with nothing but whole grapes because they cannot puncture the tough grape skin. When bees are seen feeding on grapes, they are there to obtain sap exuding from wounds made by the grub of the grape-berry moth. Inclusion of arsenate of lead in one or more of the regular Bordeaux mixture applications when grape berries are small will help control the grape-berry larva.

There is no known combination of

foods which causes poisoning simply because they are eaten together or at the same meal. For example, it is often heard that cabbage and buttermilk eaten at the same meal cause illness. This and similar rumors are as wholly unfounded as the belief that fish is a "brain" food.

Don't Breed In Vines

Mosquitoes do not breed in heavy vegetation unless such growths harbor tin cans, bottles and similar containers in which water has become stagnant. Stagnant water is the chief medium in which these creatures propagate. Destroying valuable ornamental vines to reduce the mosquito population is a futile waste.

Every farmer, orchardist and gardener should memorize the "laws" of running water as they apply to surface soil erosion. There are three:

1. If the rate of flow is doubled, the erosive power is increased four times. (Erosive power varies with the square of the velocity).

2. If the rate of flow is doubled, the amount of material of a given size that can be carried is increased thirty-two times. (Amount of material that can be carried varies with the fourth power of the velocity).

3. If the rate of flow is doubled, the size of the particles that can be carried is increased sixty-four times. (Size of particles that can be carried varies with the fifth power of the velocity).

Check The Rate Of Flow

Therefore, in plans to reduce soil losses by run-off water, the land owner's chief problem is to check the rate of flow. In other words, the erosive power of flowing water, the amount of soil it carries away, and the size of the soil particles all depend on the rate of flow.

Lady-bird beetles, often called ladybugs, are close relatives of the dreaded Mexican bean beetle. But these little bugs are the gardener's friends. They prey on many destructive pests and should be carefully protected.

Likewise, do not kill toads. They, too, are numbered among the friends of farmers and gardeners.

4 JAPANESE
CITIES FIRED

By LEIF ERICKSON

Guam, June 19 (AP)—Four of Japan's smaller war industrial cities were set afire Monday in pre-dawn raids by 450 American Superfortresses which caught the enemy by surprise but met extremely accurate anti-aircraft gunfire over one target.

The cities hit, each of less than 200,000 population, were Kagoshima and Omuta on Kyushu island and Hamamatsu and Yokkaichi on Honshu island. Results at all four were described as excellent.

Japanese communications, saying the raids lasted from one to more than five hours, claimed fires started in Hamamatsu and Yokkaichi were brought under control nearly four hours after the bombers left and those on Omuta and Kagoshima were "mostly extinguished" a little more than an hour after the all-clear signal.

Domei, admitting some damage, said additional raiders flying either singly or in small formations roared over the four cities after the main body of the bombers left.

Total tonnage of the incendiary bombs dropped in the low-level attacks was not announced. The raids were part of the 21st bomber command's new program of going after smaller Japanese cities that harbor many small but important factories and thousands of "backyard" shops.

Fliers said they found all of Kagoshima brightly-lighted, including its naval anchorage, and ran into strong flak. The fire bombs set blazes that sent smoke boiling up more than 12,000 feet and burned a "hole" in the overcast at 7,500 feet through which bright flames could be seen.

Washington, June 19 (AP)—A non-stop flight record of 20 hours, 15 minutes for 4,640 miles from Hawaii to Washington in a Superfortress has been set by Major Gen. Curtis E. Le May. Le May, chief of the B-29 fleet pounding Japan, flew the giant plane most of the way.

Injury At Bond Show

Johnstown, Pa., June 19 (AP)—Sgt. Paul Gulla, Jr., 26, Canonsburg, Pa., served 54 months in the Asiatic and Pacific war theaters only to suffer his first combat injury in a war bond show here last night.

A member of the cast of "Here is Your Infantry," Sgt. Gulla was helping storm a Japanese pillbox when a comrade's bayonet accidentally struck him in the leg.

The soldier was taken to Johnstown Memorial hospital where his condition was reported fairly good.

He lost a considerable amount of blood.

RADIO
PROGRAMS

New York, June 19 (AP)—Predicted on experience gained before the war, television has gone back to the baseball diamond to do a somewhat better job at radio views of the national pastime in action. This although little improved equipment has yet been made available.

Within the past couple of weeks, NBC's WNBT has been averaging about an afternoon game a week. Then without preliminary word, it tried one at night under the floodlights. While not as good as sun-illuminated, due mainly to limitations which restricted the effect of the pick-up, the results were looked upon as satisfactory.

Pennsy Wreck Toll
Totals 19 Persons

Milton, Pa., June 19 (AP)—The wreck of a Pennsylvania railroad passenger train and a freight here early Friday caused the death of 19 persons, the railroad said Monday.

Twelve of 29 injured persons remained in hospitals. The accident occurred when the Washington to Buffalo Dominion express crashed into the 34th car of a freight when a journal broke and hurled the car from a parallel track into the path of the express.

A POOR TRADE

Pittsburgh, June 19 (AP)—Maybe it was just a trade, but Fred Hageron thinks it a poor one. When he went to his car in a parking lot, he found the trunk open and a new tire and wheel missing. In their place was an old discarded tire.

BUMS, CHISOX
CAPTURE ONLY
LEAGUE TILTSBy TED MEIER
(AP Sports Writer)

The National league pennant probably would be a cinch for the Brooklyn Dodgers if they could play the Giants at Ebbets field all the time.

Branch Rickey's "ferocious gentlemen" pelted the Giant's last night for the sixth straight time at the Brooklyn park. They rallied to tie the score in the ninth and won out, 2 to 1, in the 13th on Howie Schultz' single with the bases loaded.

A crowd of 29,866 saw the Dodgers tighten their grip on first place. Dixie Walker singled home Goody Rosen with the tying run in the ninth and drew a base on balls in the 13th to help set the stage for Schultz.

The Giants loaded the sacks with one out in the top of the 13th, but muffed their chance when Ernie Lombardi and Napoleon Ryes popped out. The defeat dropped the Ottmen to fourth place.

Dietrich In Form

The Detroit Tigers, American league pace-setters, took it on the chin for the third straight time from the Chicago White Sox, 1 to 0. Bill Dietrich celebrated his return to the mound, after an operation to his elbow, by outpitching Dizzy Trout.

A squeeze play bunt by Catcher Mike Tresh won the game for the Sox in the last of the ninth. The ball rolled along the third base line as pinchrunner Joe Orenzo scampered home from third to the delight of 16,868 Comiskey park fans.

All the other major league teams had an open date.

Flashes Of Life

LUCK

Salt Lake City (AP)—Mrs. Wanda Carlei, Provo, Utah, salter stricken as a train approached her stalled car.

Crossing watchman R. W. McComb ran to the car, jerked open the door and pulled Mrs. Carlei from the car.

A moment later the engine struck the automobile, shoved it 63 feet and dented one door and a fender. Mrs. Carlei climbed in and drove away.

DOUBLE EMERGENCY

Portland, Ore. (AP)—Patrolman Frank Pratt answered an emergency call and then made one. He phoned his wife for instructions while helping deliver a baby boy.

TOP MAN

Colorado Springs, Colo. (AP)—A Texas fighter pilot with 312 demobilization points is the candidate of Second Air Force for No. 1 position on the adjusted service rating list.

He is Lt. Col. Royal N. Baker, 26, of McKinney, veteran of 272 combat missions in Africa, Sicily, England, and France, now assistant director of training at Fort Sumner, N. Mex., Army Air Field, a fighter pilot school supervised by Second Air Force. The 2AF public relations office said Baker desires to stay in service.

CAMOUFLAGE

Cour D'Alene, Idaho. (AP)—A two-hour search by sheriffs for the missing 2½-year-old son of Mrs. Julia Emehiser ended when his grandmother found him curled up in the blankets at the foot of his bed asleep.

PROFIT

Spokane, Wash. (AP)—R. H. Hunt, of Warehouse Point, Conn., said he went to Henry J. Kaiser's Swan Island shipyard to get some of those "big wages." He earned \$15.20 for two days' work at the end of a week. His week's board was \$14.02. The federal withholding tax was \$1. Other tax deductions totaled 17 cents. Hunt says he won't cash the one-cent check he received. It would cost too much.

NO SALE

Waterloo, Ia. (AP)—An 11-year-old boy approached a couple of golfers, offering two golf balls for sale. The lad explained he was in partners with his dog, the animal retrieving balls from a water hole, the boy selling. Just then the dog, a cocker, bounded up to the pleased exclamations of his master. "Why that's my dog!" gasped one of the golfers. The boy fled.

Floor Of Women's
Bathroom Drops

Lancaster, Pa., June 19 (AP)—Thirty women and girls plunged ten feet when the floor of a woman's bathroom at a golf club near here collapsed into the basement Sunday. Mrs. Louise Lookabaugh, 31, of Litzitz, Pa., was placed under hospital observation for a possible fracture of the neck and her daughter, Constance, 12, was treated for leg lacerations. No others were seriously injured.

Philadelphia, June 19 (AP)—A special grand jury investigation of Eastern penitentiary was ordered Monday by Judge Harry S. McDevitt, who asked jurors to "penetrate this smoke screen and get to the bottom of it."

Sports
Roundup

By HUGH FULLERTON, JR.

New York, June 19 (AP)—There's a manpower shortage in baseball that supposedly is felt more in the minors than in the big leagues. . . Nevertheless there are a few guys in the business who are drawing plenty of attention from scouts—and they may not be ready to move up before the stars who have gone to war are ready to come back again. . . Let's look at a few:

UNPOLISHED IVORY

Ed Mierkiewicz, Buffalo outfielder, is rated by all hands (including the umpires who know a good ball player when they see one) as the real "comer" in the International league. . . He's just 21, tall and hits with power. . . Last May 30 he tied one league record when he made six long hits—three homers, three doubles, in a doubleheader and he just missed another when he drove in eight runs. . . He's Tigers' property. . . Fred Danneker, Minneapolis second baseman, is another above .300 hitter. He's among the American association leaders in double plays, two-base hits and runs batted in. . . Fred has stolen more bases himself than most A. clubs. . . Art Fowler, 22-year-old Danville, Va., pitcher, recently won his ninth straight game in the Carolina league. Carl Hubbell has his eyes on this youngster and if the Giants' pitching gets much worse they might even try Art. . . Bob Wilson, Wilkes-Barre shortstop, Pitcher Sam McLawhorn brought him into camp for a trial last spring explaining: "He's got flat feet but he's a whale of an infielder." . . Bob turned out to be a whale of a hitter, too.

SHORT AND SNAPPY

William Tyree made his debut as a rider of jumping horses at the current Belmont Park meeting, which opened two weeks ago. . . Last Saturday he asked George Hyland, clerk of the scales, if he could get his check. "What's the matter?" asked George. "You all through?" "Yep, Tyree replied. "I rode just two horses and they both broke a leg, so I'm going back to the farm in Virginia."

STREAK ENDED

(By The Associated Press)
Cellar - dwelling Binghamton's winning streak had ended today. The Triplets bowed to Hartford 8-3 in an Eastern league baseball game last night. Despite the defeat, Binghamton had the satisfaction of a display of power that netted three straight victories over the week-end. Prior to the winning streak, the Triplets had won but eight games.

KILLED BY TRAIN

Portage, Pa., June 19 (AP)—Joseph Nowobielki, 62, of nearby Sonman, was killed when struck by a passenger train here yesterday. Gambia county Coroner Patrick McDermott reported. The victim was the father of John Nowobielki, one of 63 men killed in the Koppers Coal Co. Sonman mine disaster of 1940.

London, June 19 (AP)—The Soviet-controlled Berlin radio announced Mon. that Col. Gen. Berzarin, Russian commander in the German capital, had been killed in an accident. The broadcast, recorded by BBC, did not give any details.

Leaves From
Diary Of War
Correspondent

By CHARLES CHAMBERLAIN

(Substituting for Hal Boyle)

Hamburg, Germany — Lt. Colin Johnson, 25 year old British artillery officer, has one of the strangest jobs in the army of occupation. He is in charge of a three-ring circus, a bomb-dazed outfit of artists and animals captured by Field Marshal Montgomery's troops.

He volunteered for the task a month ago and now has the circus ready to open business solely for Allied troops under a big top which rises from the ruins of Hamburg, one-time circus capital of continental Europe.

To get the show into operation again after an RAF strafing plane mistook it for an enemy convoy, Colin has had to call forth all his knowledge of the circus business.

Requisition Tent

This was gained from carrying a pall of water to an elephant when a circus put up in his home town of Nottingham, England, 10 years ago.

Among the things he has had to dig up are 1,000 electric light bulbs, a tent which will accommodate 3,000 troops, 30 pounds of meat a day for the one remaining lion, and food for 50 horses, two elephants, one monkey, a dozen sheep and goats and 30 men and women artists.

The big top was about the only thing left of the internationally famous Hagenback circus. This was promptly requisitioned.

Then Colin found a supply of horse meat unfit for human consumption. He is rationing it out to Bruno, the mangy lion who is ravenously nursing himself back to health after shell splinters were removed from his hide.

Extra rations of fodder also were obtained for the horses and the two elephants which have been tugging at their chains ever since Elvira, a female elephant, stopped a stray machinegun slug in the strating attack and died.

Worries About Suzan

Colin is worried about Suzan, a sorrowful-eyed monkey that won't eat but just sits and stares since her mate was killed.

The horses are getting used to circus life again after plenty of food for the first time since the war began. Many of the fine animals had been taken by the Germans and used to pull army wagons. They still bear whip scars.

Most of the jugglers, trapeze artists, clowns and other performers are Poles, Czechs, Yugoslavs, and a few Germans who continued circus work throughout the war. Their last stand was at Breslau in January.

They were en route to Luebneg when they were strafed and then captured by the British Second army.
